

Code-Layout, Readability and Reusability

Date	29-09-2026
Team ID	SWTID-2026-6268
Project Name	A CRM Applications for the Chai Shop & Co
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Salesforce configuration and project components are organized consistently.
2	Proper File Structure	Files and folders are logically organized	Yes	Project components are logically organized into objects, tabs, fields, page layouts, record types, flows, reports and dashboards.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Meaningful names such as Employer Account, Customer Account and Enterprise Account are used.
4	Function / Method Names	Functions are descriptively named	Yes	Automation components and processes are given descriptive names such as Schedule-Triggered Flow.
5	Code Comments	Inline and block comments explain logic	Yes	Documentation clearly explains the purpose and procedure of each project component.
6	Modular Design	Code is split into reusable functions/modules	Yes	The project is divided into reusable Salesforce components such as objects, fields, email templates, flows and reports.
7	No Redundant Code	Duplicate or unused code is removed	Yes	Reusable components such as Global Picklist and Email Template reduce duplication.
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Validation Rules are implemented to prevent invalid or incomplete information from being saved

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Global Picklist	Salesforce Lightning	Picklist fields across the project	High

2	Email Template	Salesforce Lightning	Customercommunication / Email Alert	High
3	Custom Objects	Salesforce Lightning	Employer and Enterprise Account management	High
4	Validation Rules	Salesforce Lightning	Employer, Customer and Enterprise Account	Medium
5	Schedule-Triggered Flow	Salesforce Flow	Automated business process	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Project components are systematically organized into different Salesforce modules.
Readability	5	Clear and descriptive names are used for objects, fields, layouts, record types, reports and dashboards.
Reusability	5	Global Picklist, Email Template, Flow and other Salesforce components support reuse.
Documentation / Comments	5	Each activity includes its aim, procedure and resul
Overall Score	5/5	The project follows a structured and reusable Salesforce CRM implementation approach.
